The Center for Hope and Healing

www.chhinc.org

The Center for Hope and Healing, Inc.'s vision is a world free from all forms of sexual violence. We envision a world where relationships are filled with equity, respect, and compassion; one where all people, children, youth, families and communities are safe, thriving and joyful. While we understand that our vision is long term and aspirational, we believe that violence is absolutely preventable — not inevitable.

Since the on-set of the COVID-19 pandemic, we have had a 110% increase in the number of services provided to survivors of sexual violence and their loved ones. And the ongoing impacts of the pandemic have made us think about the delivery of those services. In response, we have begun a pilot program for a Mobile Healing Unit. In a time where people are unable to safely leave their homes and have limited access to technology, we are bringing the services to them. The Mobile Healing Unit combats isolation and loneliness; facilitates resource distribution to survivors and their families who have ongoing needs for food, PPE, and sanitary products; and serves as a key component of safety planning for survivors who live with their perpetrator(s).

CHH has been part of the movement to eradicate rape and all forms of sexual violence for 45 years. We recognize that sexual violence is not an individual issue; it serves to enforce oppression and dehumanization against the most vulnerable in our society. Therefore in order to accomplish our mission, we work to eliminate sexism, racism, homophobia, transphobia, xenophobia and other oppressions as weapons of violence.
